Brand Overview

Brand Overview

Intro

Welcome to the Glowvida Brand Guidelines Presentation

This guide will provide an overview of Glowvida brand identity and guidelines for ensuring consistent branding across all communications

Vision & Mission

Vision

To become a **trusted global name** in conscious beauty, **setting new standards** in clean skincare through transparency, innovation, and purpose-driven practices.

Mission

Glowvida creates clean, vegan, and results-driven skincare that blends elegance, safety, and performance. We empower women to feel confident in their glow — with products that are gentle on skin, free from harmful chemicals, and kind to the planet

Audience

Women — Women in 20-40 years old that aware with self-awareness and self care

Brand Values & Personality

Clean Beauty

We formulate without harsh chemicals, toxins, or unnecessary additives — always skin-safe.

Vegan & Cruelty-Free

Our products are 100% vegan and never tested on animals — certified and ethically developed.

Visible Results

Our skincare is not just clean — it's effective. Every product is made to deliver real improvements.

Eco-Conscious

From sourcing to packaging, we choose what's better for the environment — sustainably and responsibly.

Trust & Transparency

We're honest about what goes into our products and how they're made — clarity builds loyalty.

Elegant Simplicity

From design to routine, we believe beauty should feel effortless, soothing, and emotionally inspiring.

Logo

Elements Overview

The Prime logo uses clean, modern typography that feels elegant and approachable. Its rounded letterforms give a sense of softness and harmony, while the bold simplicity conveys confidence and clarity.

Overall, the logo reflects a balance of radiance (glow) and life (vida)—capturing a brand identity that is fresh, vibrant, and sophisticated.

NAME KEYWORDS

Glow

Represents light, radiance, positive energy, elegance, and beauty. It conveys the idea of shining from within, perfectly aligned with themes of wellness, beauty, and lifestyle.

Vida

Derived from Spanish/Latin meaning “life.” It reflects vitality, well-being, and the essence of living a healthier, more fulfilling life.

These guidelines demonstrate the flexibility within the brand identity and should be used to inspire and motivate creative expression.

The Prime logo is an important asset of the company, providing a legal trademark and guarantee of quality.

Glowvida®

Our logo variations include both horizontal and vertical orientations, each available in light, dark, black, and white versions to cater to a range of design needs.

Horizontal Logo

The horizontal configuration features the brandmark and text placed side by side.

This version is available in:

- Light Version: Optimized for light backgrounds, providing a clean and modern appearance.
- Reverse Version : Designed for use on neutral/ dark backgrounds, ensuring high visibility and legibility.

Vertical Logo

The vertical configuration places the brandmark above the text, creating a compact and visually balanced design.

This version is available in:

- Light Version: Perfect for light backgrounds, maintaining a fresh and approachable look.
- Reverse Version : Designed for use on neutral/ dark backgrounds, ensuring high visibility and legibility.

Glow
vida®

Black & White Logos

To maintain versatility and brand consistency across various applications, the Prime logo is available in both black and white versions for each orientation.

The image shows the 'Glowvida' logo in a light pink color, centered on a white square background. The logo is in a rounded, sans-serif font, with a registered trademark symbol (®) at the end of 'vida'.The image shows the 'Glowvida' logo in a light pink color, centered on a white square background. The logo is in a rounded, sans-serif font, with 'Glow' on the top line and 'vida' on the bottom line, separated by a small gap. A registered trademark symbol (®) is at the end of 'vida'.The image shows the 'Glowvida' logo in white, centered on a dark brown square background. The logo is in a rounded, sans-serif font, with a registered trademark symbol (®) at the end of 'vida'.The image shows the 'Glowvida' logo in white, centered on a dark brown square background. The logo is in a rounded, sans-serif font, with 'Glow' on the top line and 'vida' on the bottom line, separated by a small gap. A registered trademark symbol (®) is at the end of 'vida'.

Maintaining this clear space around the logo is crucial for preserving brand integrity and ensuring the logo's visibility and recognition in all contexts, whether in print, digital media, or other applications.

Clear Space Area Guidelines

The safe area is defined as the minimum amount of space that must be maintained around the logo on all sides.

For the Prime logo, the safe area is equivalent to the size of the "G" words in the logo text.

No other graphic elements, text, or images should enter this safe area. This ensures that the logo remains unobstructed and retains its visual impact.

The safe area defines the minimum space around the Glowvida logo where no other graphic, text, or element should appear. It ensures the logo remains legible and recognizable in all applications.

Minimum Size

Digital – The logo **should never** be displayed smaller than 24px wide.

Print – The logo **should never** be displayed smaller than 10 mm wide.

For small-scale usage – use at least 32×32 px to maintain readability (e.g., favicon, app icon)

Digital Usage

Glowvida®

Minimum Digital Size > 24 px

Print Usage

Glowvida®

Minimum Print Size > 10 mm

Logo Don'ts

This section provides examples of what to do and what to avoid in order to maintain consistency and ensure Prime's visual identity is presented accurately across all platforms.

Avoid stretching, squishing, rotating, or otherwise altering the proportions of the logo.

Use the logo only in the approved brand colors.

Refrain from adding shadows, gradients, or other effects.

Always use high-quality, vector-based versions to maintain clarity.

Keep the typography consistent and do not substitute fonts.

Ensure there is sufficient contrast between the logo and its background when using neutral colors.

File Formats

PNG

For digital use with transparent background (web, social media, presentations).

JPG

For digital or print use with solid backgrounds.

PDF/EPS

For high-quality print and professional production.

SVG

For scalable vector use on web & UI without losing quality.

Color Modes

RGB

For all digital applications (website, app, screen).

CMYK

For all print applications (flyers, packaging, merchandise).

Pantone

For brand color accuracy in large-scale or professional printing.

Resolution

Digital use

Minimum 72 DPI.

Print use

Minimum 300 DPI.

Always export logos in high resolution to maintain clarity.

Export
Guideline

Export Do's and Dont's

This section provides examples of what to do and what to avoid or not in order to maintain consistency and ensure Prime's visual identity is presented accurately across all platforms.

Always export from the original master file (vector).

Do

Use transparent background PNG for flexibility.

Do

Keep proportions consistent when scaling.

Do

Do not export by screenshot.

Dont's

Do not compress excessively (avoid pixelated logos).

Dont's

Do not change colors outside the approved palette.

Dont's

Implementing Logo on Dark Photography

For dark or high-contrast backgrounds, use the white version of the logo to keep it clear and visible.

- Use white logo.
- Add soft transparent box/glow if background is too textured.
- Maintain clear space around the logo.

Optimize Logo Size for Print

A brand's logo is a critical component of its identity, and its correct application across all platforms is essential for maintaining consistency and recognition. When a designer works with a logo, they must consider its size, resolution, and surrounding space to ensure it always looks its best.

Color

The palette includes five primary colors and three gradients, each serving a specific purpose in our brand's visual communication.

Signature Color

Our signature color represents trust, innovation, and reliability. It is the cornerstone of our brand identity and should be prominently used across all branding materials.

Signature Color	Accent Color	Neutral A	Neutral B
HEX#EEBFCC RGB238, 191, 204 CMYK0, 20, 14, 7 HSL343°, 58%, 84% HSB343°, 20%, 93% Pantone510-C	HEX#F8C7D0 RGB248, 199, 208 CMYK0, 20, 16, 3 HSL349°, 78%, 88% HSB349°, 20%, 97% Pantone496-C	HEX#1E1E1E RGB30, 30, 30 CMYK0, 0, 0, 88 HSL0°, 0%, 12% HSB0°, 0%, 12% Pantone419-C	HEX#FFFFFF RGB255, 255, 255 CMYK100%, 100%, 100%, 100% HSL0, 0, 0, 0 HSB0°, 0%, 100% PantoneWhite

Glowvida’s visual identity is built on a soft yet confident palette. The following primary and supporting shades/tints ensure consistency across digital and print media.

Primary Pink

Use for highlights, brand accents, and core identity visuals.

Black

For typography, contrast backgrounds, and strong minimal layouts.

Shades & Tints

Recommended for gradients, UI states (hover, active), and subtle background layering.

Primary pink 01 HEX#EEBFCC RGB238, 191, 204 CMYK0, 20, 14, 7 HSL343°, 58%, 84% HSB343°, 20%, 93% Pantone510-C	Shade 70%#7F5F66	Shade 40%#B28094	Tint 40%#F3D7E0	Tint 70%#F9EAF0

Contrast

Color contrast ensures that Glowvida’s visual identity remains clear, legible, and accessible across all media. Proper contrast between text and background colors helps audiences read information easily and prevents brand visuals from appearing weak or unprofessional.

Typography

For the Prime brand, we have carefully selected a distinct font to convey our identity across various platforms.

Geist

Default for English, Turkish, and other Latin-based languages. With type of Clean, modern, minimal sans-serif that aligns with Glowvida’s brand tone.

Applications

Digital UI, marketing, headings, body text in Latin characters.

Aa

Uppercase Alphabet

ABCDEFGHIJKLMNOPQRSTUVWXYZ

Lowercase Alphabet

abcdefghijklmnopqrstuvwxyz

Numbers

0123456789

Symbols

!@#\$%&*()_+{}|;:“,.<>/?’

Secondary Typeface (Extended Support)

Noto Sans Arabic

For Arabic script. Designed for readability across multilingual scripts, ensuring Glowvida's brand is accessible globally.

Applications

Multilingual campaigns, regional adaptations, or whenever Arabic/Turkish text is required.

Aa

Arabic Alphabet (أحرف عربية)

ا ب ت ث ج ح خ د ذ ر ز س ش
ص ض ط ظ ع غ ف ق ك ل م ن ه و ي

Typography hierarchy helps establish a clear visual structure, making Glowvida's communication consistent and easy to read across both digital and print applications. It defines which type sizes, weights, and styles to use for titles, subtitles, body text, and captions.

Print (Packaging & Stationery)

For print applications (packaging, stationery, brochures), hierarchy is defined in pt (points) to ensure consistent sizing when printed. Strong titles (H1/H2) are crucial for visibility on packaging, while smaller body text and captions are optimized for stationery and long-form print materials.

Note

Apply same sizing system whether using Geist (Latin) or Noto (Arabic/Turkish).

Sample Text (EN/Latin)

Glowvida brings elegance and clarity to modern design.

Sample Text (Turkish)

Glowvida güçlü bir marka kimliği sunar.

Sample Text (Arabic)

جلوفيدا تقدم هوية علامة تجارية واضحة وأنيقة.

H1 Title - Bold
48 pt

Glowvida brings elegance and clarity to modern design.

H2 Subtitle - Semibold
36 pt

Glowvida brings elegance and clarity to modern design.

H3 Subhead - Medium
24 pt

Glowvida brings elegance and clarity to modern design.

Body Text - Regular
12 pt

Glowvida brings elegance and clarity to modern design.

Captions Label - Regular
9 pt

Glowvida brings elegance and clarity to modern design.

Print Tips

Packaging

Use strong H1/H2 sizes to ensure the brand name is clear and stands out on shelves.

Stationery

Body and Caption sizes are most common, so readability between 12pt–9pt is essential.

Multilingual Materials

Use Noto when Arabic or Turkish content is required, while keeping the same hierarchy for consistency

Typography hierarchy helps establish a clear visual structure, making Glowvida's communication consistent and easy to read across both digital and print applications. It defines which type sizes, weights, and styles to use for titles, subtitles, body text, and captions.

Digital (Screen/UI)

For screen-based use (websites, social media, UI/UX), hierarchy is defined in px/rem to ensure responsiveness and scalability across devices. Larger headings (H1, H2) create impact for hero sections, while body text and captions maintain readability on smaller screens.

Note

Apply same sizing system whether using Geist (Latin) or Noto (Arabic/Turkish).

Sample Text (EN/Latin)

Glowvida brings elegance and clarity to modern design.

Photography

Photography is an essential part of Glowvida's visual identity. It reflects the brand's mood: chic, clean, and heart-warming. Each image should carry a sense of warmth, elegance, and simplicity, with pink tones as subtle accents that strengthen brand personality.

Defines the overall feeling of Glowvida photography. Each image should be minimal yet elegant, with warmth and authenticity at its core.

Chic & Clean - Minimal compositions with balance and negative space.

Heart and Warm - Natural expressions, warm interactions, and authentic lifestyle moments.

Soft & Feminine - Gentle lighting and pastel-inspired backgrounds.

Ensures photos remain aligned with Glowvida's brand palette. Soft pink highlights and neutral backgrounds create consistency across all visuals.

Color Treatment

Use the brand's pink palette as a highlight or accent in photography.

Neutral backgrounds such as white, beige, or soft pink are preferred.

Avoid overly dark, neon, or saturated color treatments.

Keep grading soft, bright, and warm to maintain brand harmony.

Glowvida®

Subjects & Composition

Focuses on what and how to capture: people, products, and details, framed in a minimal chic style with enough space for branding elements.

Highlight people-first imagery

Candid portraits, natural gestures, warm emotions.

Include product & lifestyle details

Packaging, flowers, textures.

Keep compositions clean, with ample negative space for typography or logo placement.

Use balanced framing with chic minimal style.

Glowvida Brand Guideline

Brand Assets

Purpose

Icons help create a consistent and recognizable look across digital and print materials. For Glowvida, icons should feel minimal, soft, and elegant—reflecting the chic and clean personality of the brand.

Assets to Include

File formats
SVG, PNG (transparent background).

- Color variations
- Default (brand pink #EEBFCC).
 - Neutral (black #1E1E1E & white #FFFFFF).

Usage examples
Website buttons, skincare routine infographics, social media highlight icons.

Primary icon set (line-based, rounded edges).

Iconography & Graphics

Product-related icons

Functional / UX icons

Skincare Routine Icons

Social Media Highlight Icons

Packaging is the most tangible touchpoint for Glowvida. It should communicate trust, cleanliness, and elegance while staying consistent with brand colors and typography.

Explain why packaging & stationery are crucial touchpoints: they carry the brand into physical reality, ensuring every customer interaction feels premium, consistent, and trustworthy.

Stationary Application

- Minimalist layout, plenty of white space.
- Logo placed consistently (top-left or bottom-right).
- Use Noto for multilingual versions (Arabic/Turkish).
- Stick to brand palette only, avoid adding extra colors.

Explain why packaging & stationery are crucial touchpoints: they carry the brand into physical reality, ensuring every customer interaction feels premium, consistent, and trustworthy.

Packaging Principles

Color variations
Use primary brand colors (#EEBFCC, #F8C7D0) with enough white space.

Logo should always be clear, with safe area respected.

Typography hierarchy
Product name (H1), description (H2/Body).

Contrast
Make sure information (ingredients, how to use, warnings) remains legible.
