Illustration

Our illustration direction embraces simplicity and charm, featuring playful and rough shapes of lemons, oranges, coffee beans, strawberries, cinnamon sticks, and cashews. These whimsical illustrations add a touch of fun and creativity to our brand, reflecting the vibrant and joyful spirit of Pura Sweets.

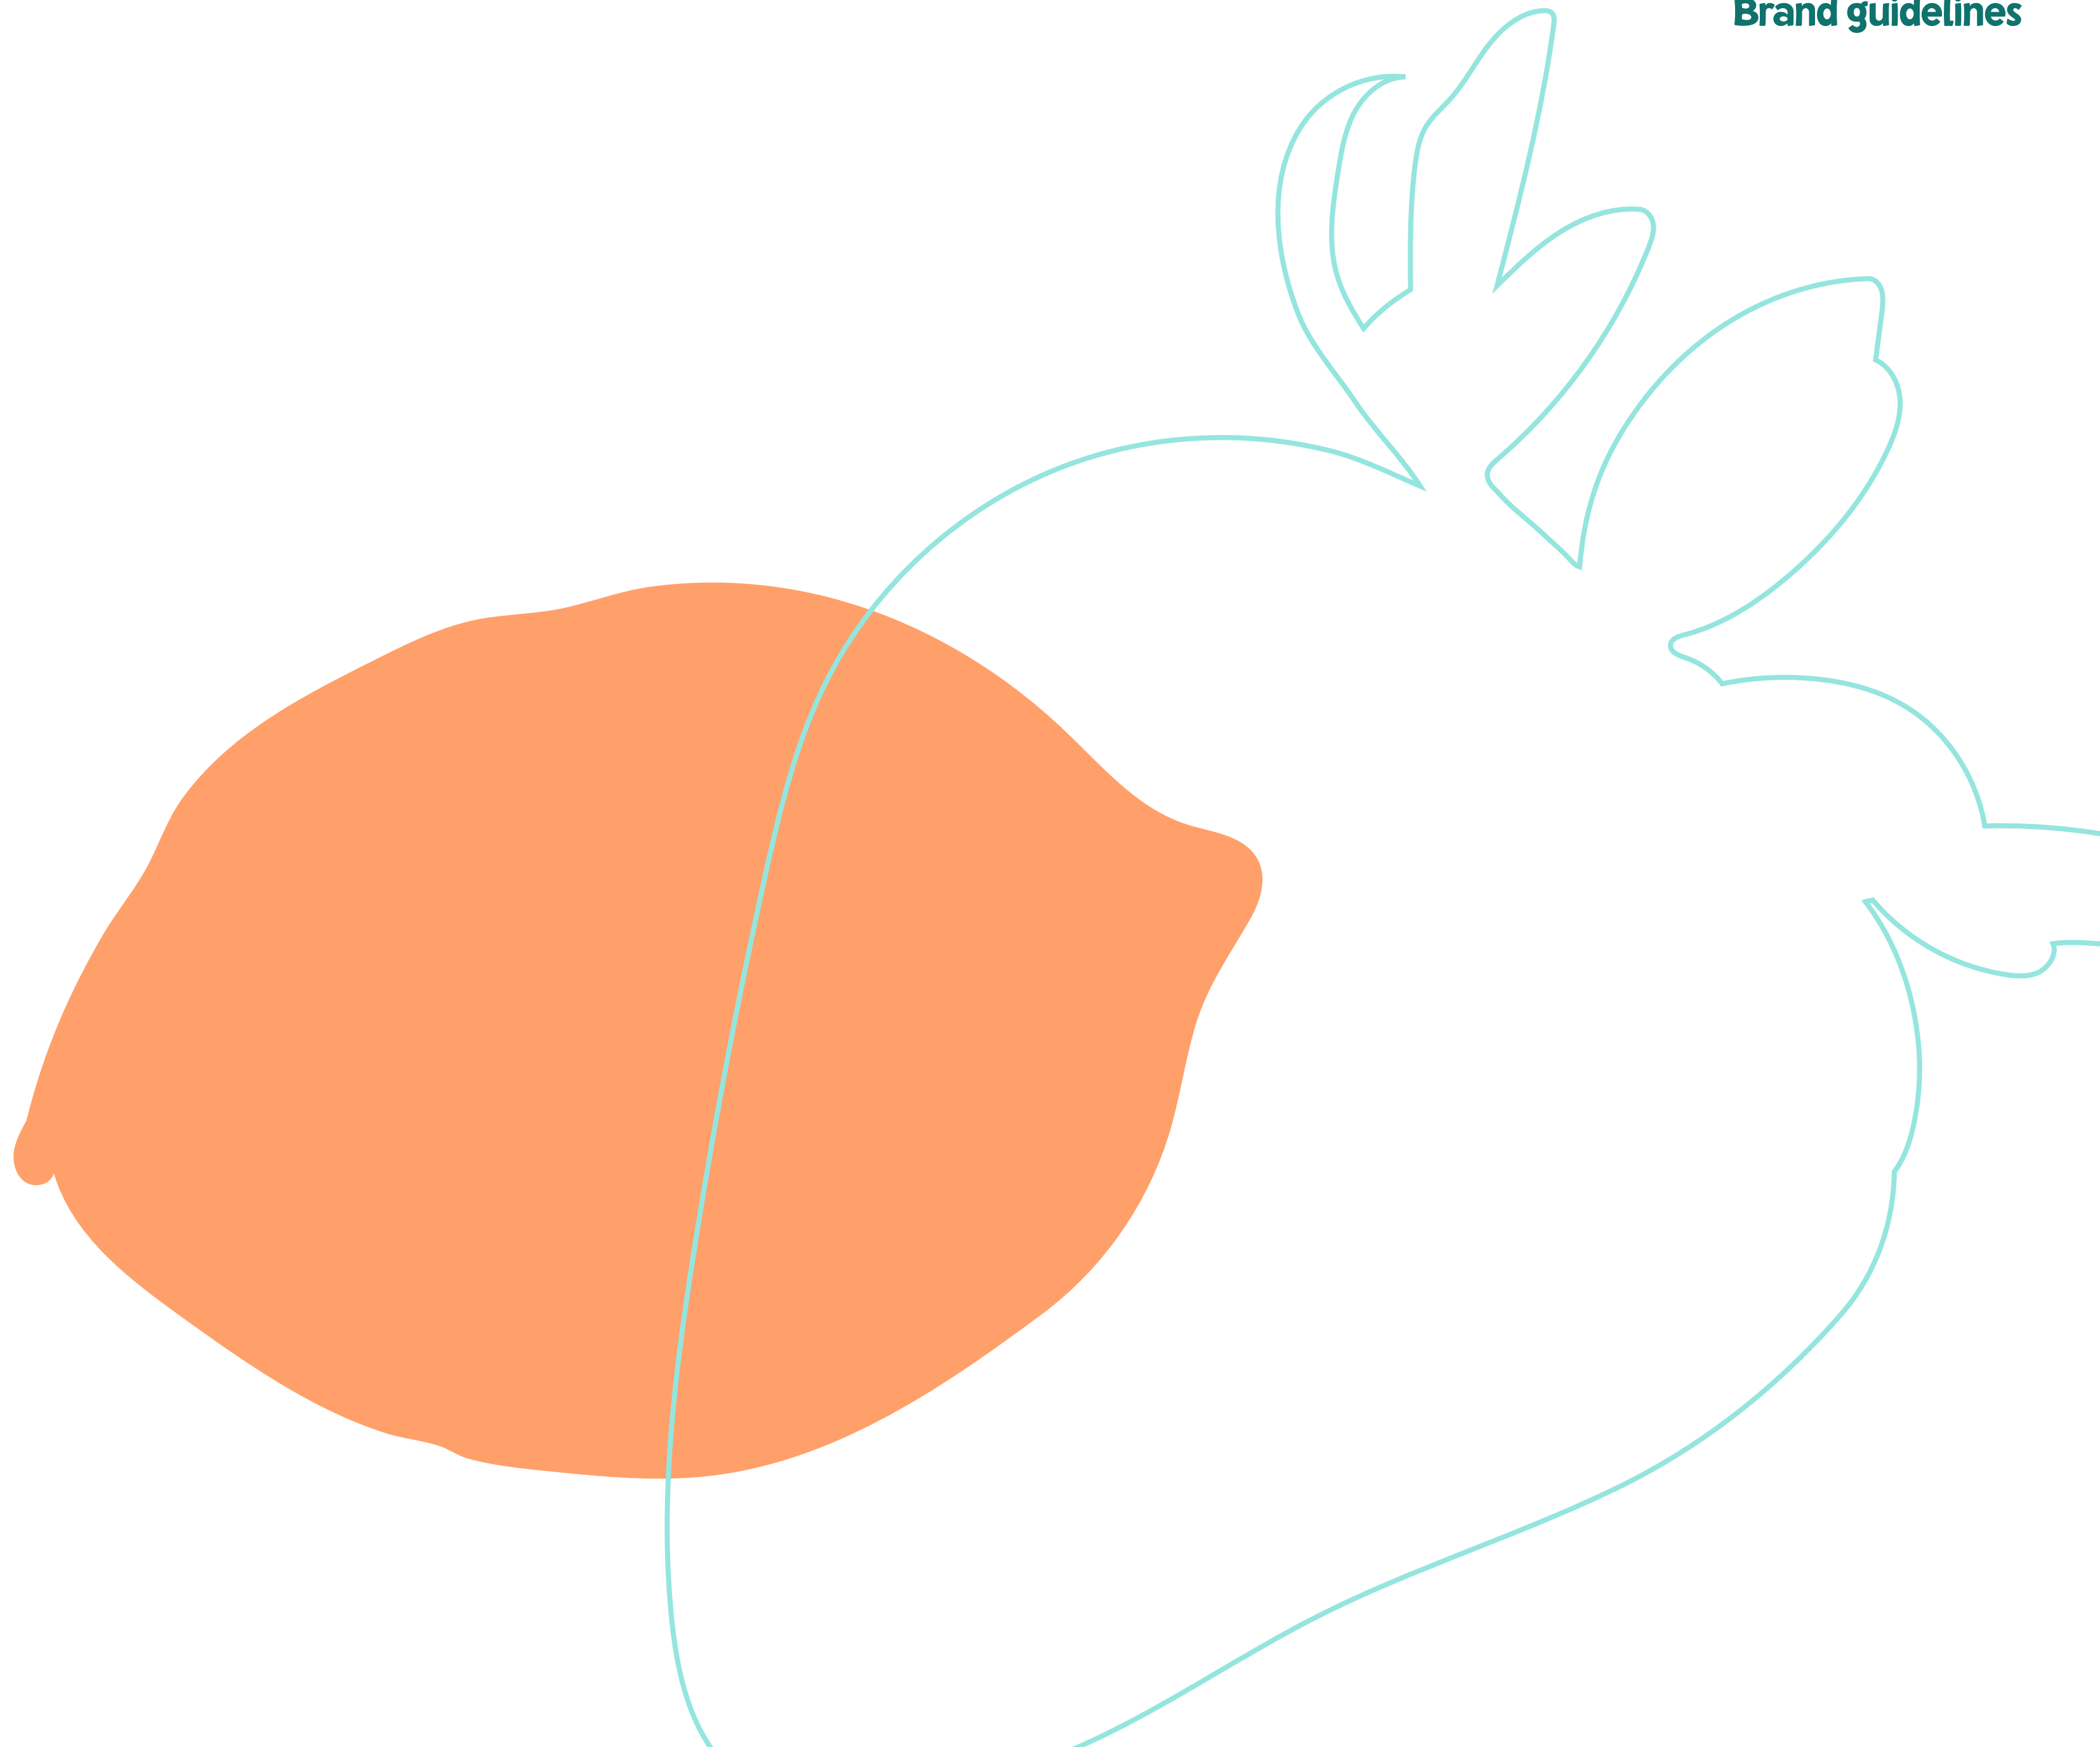

Each element is designed to be easily recognizable and visually appealing, enhancing our packaging, menus, and marketing materials with a delightful and cohesive aesthetic.

These illustrations not only highlight our fresh and flavorful offerings but also create a memorable and engaging visual experience for our customers

We love to use our illustrations in fill and outline form. The blending of these two styles together creates a more appealing and exciting aesthetics.

You can see how these two styles work together in our pattern that is shown in the next page. Whenever these two styles appear, there must be an overlap of the two shapes and they must be in different colors.

Photography

Our photography direction captures the essence of our cozy and inviting atmosphere. Our images showcase the vibrant Pura Cafe ambiance, delicious food and coffee, and joyful moments of people enjoying their time.

Each photo is bright and infused with a subtle yellowish filter, adding a warm and cheerful vibe. We focus on clear, specific elements, ensuring that each image has a central object and is not overly crowded.
