

THE FINISHING TOUCH

Surfaces & materials that come to life, embody the markings of time and reflect the innate beauty of the found world we live in

01

EVOLUTION

A unique and iconic element of great strength, Evolution represents the power of the evolution that the world of wooden furniture has undergone in recent decades.

02

LOWTIDE

A walk along the wind-swept seashore inspired the creation of the Lowtide coffee table by Dutch designer Roderick Vos. The piece uses a computer-guided milling technique to give the top a 'handcrafted' pattern, that resembles the sand structures left on the beach at low tide.
